

Princeton Academy of Art – Pre-Academy Program (PRECAD S1) Registration Form

Sundays 10:30am-1:30pm

Introduction

We would like to formally welcome you and your child to the Princeton Academy of Art family. We are so glad that you have decided to take your child's art education to the next level here in the heart of Princeton.

Our Academy offers its students world class instruction through a tradition that has been passed down for over 200 years from teacher to student. Our curriculum is a preservation of the teachings of the Russian Academy of Art, who before us, preserved the knowledge of the Italian and French Academies. This tradition in conjunction with the deep understanding of art history will give your child the strongest building blocks possible to explore their artistic potential and enhance their visual experience.

Princeton Academy of Art presents a unique opportunity for its young students to receive the same education that full-time adult students receive.

Master teaching together with focused practice leads to the ignition of interest in a student. Only in this way can we raise lasting results and illuminate talent. Our curriculum is based on a progression of knowledge over time. Creativity is achieved through hard work and doesn't happen overnight, which is why our program is structured for an entire year.

Benefits of Full Year Study

- Continuous rigorous training in classical drawing and painting which improves children's graphomotor skills
- In-depth study of art history with field trips to enhance your child's learning experience
- Art Shows
- Access to select PAA art history lectures
